INNOVATIVE TEACHING LEARNING METHODS (J.SHANMUGA KANI)

Subject name	Topic	Overview of the topic	Teaching methods	Proof of the activity	Feedback from the students	Outcome of the activity
BEEE	Mesh Analysis	Determination of current in different loops can be obtained using mesh analysis	Active learning	https://youtu.be/whXR6QFqoMo	Mesh analysis was learned analytically	Students will be able to solve the mesh analysis problems and find the current flowing in different loops.
